

## NEW ROTARY SOLUTION FROM SOUTHCO COMBINES ROTARY LATCH AND ACTUATOR FOR SIMPLIFIED INSTALLATION

**CONCORDVILLE, Pa., December 07, 2017** — Southco, Inc., a global leader in engineered access solutions, has recently expanded its successful line of rotary latching solutions with the launch of the R4-81 Rotary Latch with Paddle Actuator. The newest addition to the R4 Rotary Latch series combines a compact rotary latch with a heavy duty paddle actuator, enabling direct actuation without the need for a connected cable.

Available in corrosion resistant plastic and die cast steel, the R4-81 offers a stylized paddle design with custom finish options and versatile key locking security. By combining both rotary latch and actuator into one solution, the R4-81 enables simplified rotary system installation for a variety of transportation applications including Off-Highway, Heavy Duty Truck, Rail and Marine.

With high ultimate load for heavy duty applications and an environmentally sealed design that protects against dust and liquid ingress, the R4-81 offers an excellent solution for exterior applications that require robust performance. These latches are available with an integrated bumper, and with single or two-stage latching.

Global Product Manager Cynthia Bart adds, “The R4-81 Rotary Latch with Paddle Actuator provides an all in one rotary solution with its combined rotary latch and actuator design. With its robust construction, this product is well suited to rugged environments and exposure to the elements.”

For more information about Southco’s complete line of R4 Rotary Latching solutions, please visit [www.southco.com](http://www.southco.com), e-mail the 24/7 customer service department at [southco.com/contact/en](mailto:southco.com/contact/en), call 610-459-4000 or fax your inquiry to 610-459-4012.

Southco is the leading and trusted global source for engineered access hardware solutions, including a variety of latches, locks, captive fasteners, quick access fasteners, hinges, handles, inserts, electronic access solutions, and other accessories for applications in the networking, telecommunications, computer, automotive, aerospace, mass transit, off-highway/construction, RV/caravan, industrial machinery, marine and HVAC industries.

Southco is passionately focused on delivering customized engineering solutions and global support for its customers. The company aspires to be a virtual engineering center for its customers’ engineered access solutions and is committed to providing outstanding quality and overall satisfaction. Southco’s promise to its customers is to connect, create and innovate to provide the best solution for every access engineering problem. [www.southco.com](http://www.southco.com)
